MANU

.NET Framework Architect | 37 NuGet Packages (3,000+ Downloads) | Product Builder

recurpixel@gmail.com | recurpixel.io | github.com/RecurPixel | NuGet Profile

.NET framework architect with 3+ years backend experience. Published 37 NuGet packages (3,000+ downloads, 26 GitHub stars) including RecurPixel.Notify notification framework. Built ShopCore platform solving real market problems: 90% payment fee reduction through innovative billing architecture. Combines technical expertise in Clean Architecture, CQRS, Event Sourcing with product thinking and market analysis.

TECHNICAL SKILLS

Backend: C#, .NET 8, ASP.NET Core Web API, Entity Framework Core, RESTful APIs, SignalR, NuGet Development

Architecture: Clean Architecture, CQRS, Event Sourcing, DDD, Multi-tenant SaaS, Microservices, SOLID Principles

Database: SQL Server, PostgreSQL, MySQL, T-SQL, LINQ, Query Optimization, Indexing, Database Design

DevOps: Git, GitHub, Azure, Docker, CI/CD, Linux, Swagger/OpenAPI, Railway, Postman

Testing: xUnit, Moq, Unit Testing, Integration Testing, BenchmarkDotNet, TDD

PROFESSIONAL EXPERIENCE

Independent Software Developer & Framework Architect | Self-Employed

Jun 2024 - Present | 20 months | Remote

- Published 37 NuGet packages with 3,000+ downloads: RecurPixel.Notify framework (26 ⭐, 30+ adapters), RecurPixel.EasyMessages (500+ downloads, 119ns performance)
- Built ShopCore subscription platform: 90% payment fee reduction via monthly billing, multi-item subscriptions, event-sourced deposit system, 150+ API endpoints
- Architected using Clean Architecture, CQRS, DDD, and Event Sourcing with multi-tenant SaaS patterns
- Contribute technical documentation to .NET community via GitBook and open-source projects

Backend Developer (Part-time) | ITworks Infotech Pvt LTD

Aug 2023 - Jun 2024 | 11 months | Remote

- Optimized backend APIs serving 10,000+ users, improving response times by 40% (800ms → 120ms queries)
- Managed cloud infrastructure on AWS EC2 and Linux VPS with 99.9% uptime SLA

Backend Developer (Contract) | Self Employed

Feb 2023 - Jul 2023 | 6 months | Remote

- Built custom web applications and RESTful APIs for local businesses and enterprise clients
- Strategic upskilling period: specialized in .NET ecosystem and advanced architectural patterns

Backend Developer | ITworks Infotech Pvt LTD

Aug 2021 - Dec 2022 | 1 yr 5 months | On-site, Pune

- Architected 50+ RESTful API endpoints for client applications with JWT authentication and RBAC
- Optimized database schemas and queries by 45%, integrated payment gateways (Stripe, Razorpay)

FEATURED PROJECTS

ShopCore - Subscription Platform with Payment Innovation | GitHub | Live Demo

Clean Architecture, CQRS, Event Sourcing, DDD, Multi-tenant SaaS, PostgreSQL, 150+ APIs

Solves payment gateway fee problem: daily delivery + monthly billing = 90% fee reduction. Multi-item subscriptions (milk + newspaper + bread) with independent schedules. Smart deposit system using event sourcing for audit trails. Complex domain model with DDD state machines, CQRS separation, vendor-led QR-code onboarding for viral growth.

RecurPixel.Notify - Notification Framework (37 Packages, 26 ⭐) | GitHub | NuGet

Framework Architecture, Strategy Pattern, Modular SDK, Meta Packages, 3,000+ Downloads

30+ adapters (Email, SMS, Push, Slack, Discord, Telegram, WhatsApp, Teams, SendGrid, Twilio, Firebase) via unified SDK. Strategy pattern enables 3-line provider switching. Modular architecture with meta packages for dependency management and base SDK for custom adapters. Production-ready with retry logic, async/await, comprehensive error handling.

RecurPixel.EasyMessages - API Response Library (500+ Downloads) | GitHub | NuGet

Performance Optimization, BenchmarkDotNet, API Design, ASP.NET Core Integration

Standardized API response patterns with performance optimization: 119ns conversions, 3µs JSON formatting, 256-560B memory footprint. Zero-configuration fluent API reduces boilerplate by 60%. Includes ASP.NET Core integration package.

EDUCATION

M.Sc in Computer Science, VCACS, Pune (2019-2021) | CGPA: 9.2/10

B.Sc in Computer Science, S.M.Joshi College, Pune (2016-2019) | Grade: O (86.8%)
